

Get your diploma in Basic Hormone Therapy

International Hormone Society

Basic Hormone Therapy Diploma

The Basic Hormone Therapy Diploma is a short training program organized by the International Hormone Society, and confirms a physician's deeper knowledge in 15 hormone therapies. Excellent to start well hormone diagnoses and therapies, acquire useful scientific knowledge, and proceed with safety and know-how in hormone therapies.

Why should you as a physician get the Basic Hormone Therapy Diploma?

- + To learn the **basic scientific information** and **practical know-how** in **15 hormone therapies**. Get specific information on how to start your hormone therapy consultation, optimize hormone levels, treat with more than 15 hormones, cure and prevent diseases, etc.
- + To get you an **official certification** for your **medical skills in hormone therapy**, acknowledged by the International Hormone Society (IHS) and its president Dr. Thierry Hertoghe.
- + To raise **enthusiasm**: it is a pleasure for physicians to feel they master the basic and many of the advanced skills in Hormone Therapy.
- + To join the **movement** of more than 2500 physicians of the International Hormone Society; the IHS community.

Advice

- + The Basic Hormone Therapy is a short training program in hormone therapy, more extensive than the Board Certification in Hormone Therapy.
