

Get your diploma in Hormone Therapy Speciality

International Hormone Society

Hormone Therapy Speciality

The Hormone Therapy Specialty is one of the, if not the, most complete international fellowships in hormone diagnosis and therapy. It provides physicians with practical knowledge and skills in hormone therapies. Excellent to become advanced in hormone therapy as well scientifically as practically in more than 30 hormone therapies. It helps physicians to treat the vast majority of endocrine pathologies, from borderline to overt hormone deficiencies and excesses.

Why should you as a physician get the complete fellowship in hormone therapy, the Hormone Therapy Speciality?

- + To become advanced in hormone therapy: scientific knowledge, and safety and practical administration of more than 30 hormone therapies (deficiencies and excesses in thyroid, sexual hormones, DHEA, growth hormone, melatonin, oxytocin, etc.).
- + To get you an official certification for your medical skills in 30 hormone therapies, acknowledged by the International Hormone Society (IHS) and its president Dr. Thierry Hertoghe.
- + To raise enthusiasm: it is a pleasure for physicians to feel they master the basic and many of the advanced skills in Hormone Therapy.
- + To join the movement of more than 2500 physicians of the International Hormone Society; the IHS community.

Advice

- + The Hormone Therapy Speciality is the most internationally extensive training program in hormone therapy.
